

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
+  
What is the first number you would like to +  
1  
What would you like to + against 1  
100  
1 + 100 = 101
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
add  
What is the first number you would like to add  
8  
What would you like to add against 8  
10  
8 + 10 = 18
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
-  
What is the first number you would like to -  
10  
What would you like to - against 10  
100  
10 - 100 = -90
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
subtract  
What is the first number you would like to subtract  
5  
What would you like to subtract against 5  
-9  
5 - -9 = 14
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
*  
What is the first number you would like to *  
4  
What would you like to * against 4  
5  
4 * 5 = 20
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
multiply  
What is the first number you would like to multiply  
0  
What would you like to multiply against 0  
9  
0 * 9 = 0
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
/  
What is the first number you would like to /  
8  
What would you like to / against 8  
2  
8 / 2 = 4
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
divide  
What is the first number you would like to divide  
100  
What would you like to divide against 100  
10  
100 / 10 = 10
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
/  
What is the first number you would like to /  
10  
What would you like to / against 10  
0  
Cannot divide by zero
```

C:\Program Files\dotnet\dotnet.exe

```
What would you like to do: Add (+), Subtract (-), Multiply (*) or Divide (/)?  
jump  
What is the first number you would like to jump  
1  
What would you like to jump against 1  
2  
jump is not a feature of this calculator
```
